

**Twenty-Sixth Annual Feast of Tabernacles/Holy Convocation – 6009/2006**

**“The Seven Last Plagues,” Part 9**

All praises be to our great, good, and terrible Father in Heaven, יהוה, and to His most benevolent, eleemosynary, and merciful Son, יהוה בן יהוה! Praise יהוה! Now, Israel, in this day, what doth the Lord, יהוה, thy God require of thee, but to fear the Lord, יהוה, thy God, to walk in all His ways, and to love Him, to serve the Lord, יהוה, thy God with all thy heart and with all thy soul; to keep the commandments of the Lord, יהוה, and His statutes, for our good? (Deuteronomy 10:12 and 13).

This is the day when all nations and peoples, who want salvation out of the destruction of this world, must come up unto יהוה בן יהוה and bow down at His feet (Isaiah 60:12 and 14). There is no other way to salvation for me or anyone else but through the Son of יהוה. Henceforth, we must sincerely and genuinely devote all of our hearts, souls, minds, and bodies unto the laws and teachings of the Messiah, יהוה בן יהוה (Deuteronomy 6:5-9). We must make it our duty and responsibility to be worthy of having our names written in the Lamb’s Book of Life (Revelation 21:27). Praise יהוה!

Shalom Aleichem and welcome to our *Twenty-Sixth Annual Feast of Tabernacles* in the solar year of our Lord and Savior, **יהוה בן יהוה**, 6009. We are gathered here at the Doubletree Plaza Hotel in Montreal, Quebec, Canada, which is the one and only place where our God, **יהוה**, has chosen to place His incomparable name. Therefore, be exceedingly glad and rejoice as we observe this great feast and keep the holy and sanctified laws of the true and living God, **יהוה**, as He commands us in the King James Version of the Holy Bible.

Once again, I welcome you all, family and friends, to our seminar this morning on *“The Seven Last Plagues,”* Part 9. Our purpose is to communicate and convey with accuracy the dilemma and quandary that shall result from the pouring out of the wrath of **יהוה** which will be contained within the sixth of the seven last plagues that shall befall a predestined group of people. Praise **יהוה**! However, let us recollect or bring back to our minds the astounding knowledge that was revealed and made public in *“The Seven Last Plagues,”* Part 8.

The foundation research Scripture for our last seminar was written in Revelation, Chapter 16, verse 10, which reads:

**“And the fifth angel poured out his vial upon the seat of the beast; and his kingdom was full of darkness; and they gnawed their tongues for pain,”**

After decoding this verse, we came to learn of the detrimental consequences that shall come about after the pouring out of the fifth of the seven last plagues.

We validated that this fifth angel--in the series of seven angels of **יְהוָה** in Revelation, Chapter 16, verse 10--shall carry out his task by intensively sprawling forth this particular plague upon **the seat of the beast**. We ascertained that this plague shall be spilled out upon a certain power or authority represented by a body of politicians who pursue and occupy elective offices described as democrats, lawmakers, legislators, members of Congress, officeholders, party members, the president, republicans, senators, speakers, and statespersons.

Furthermore, using some of the most reliable sources available in the world, we documented that *the* beast in Revelation, Chapter 16, verse 10 is the **PRESIDENT OF THE UNITED STATES OF AMERICA**. Continuing with this line of investigation, we concluded that even though the President of the United States of America is a member of a secret society--*Skull and Bones*, he is yet slow-witted and is lacking in normal intelligence. Irrefutable and extensive documentation provided evidence, beyond a reasonable doubt, that **George** Walker Bush--the beast and President of the United States of America--shares the same name as his father, which is **George** Herbert Walker Bush. As president, he holds

a preeminent position in which he is able to exercise full executive and administrative power and authority. Therefore, it was made obvious that the United States of America is the *kingdom* that shall be *full of darkness* as a consequence of the fifth plague of **יִחַד**.

The darkness that shall come upon the kingdom of the President shall be so full that it shall be to the highest degree and to the largest extent; even to the point that there will be no space for anymore. This darkness shall also contain as much darkness as it will be possible to hold. In addition, shadiness and obscurity shall be evident from the highest levels of U.S. government on down to everyday civilians. Thus, the moral, spiritual, and intellectual darkness and blindness of the people shall become so great that America will be a place of unprecedented punishment.

Finally, we unveiled the last part of our foundation Scripture, which allowed us to conclude with certainty that because of the severe moral and spiritual darkness, plus having to accept and deal with a president that is completely incompetent and inept, the politicians within the governmental body of President George W. Bush shall afflict and worry him persistently. His lack of intelligence and brainpower shall cause them to be a source of continuous vexation, trouble, and torment to him. Why? Because they will be annoyed by and always worried

about his constant off- the-record decisions and unrealistic plans--and will always be on the attack.

Moreover, the President's own people shall chew at each other repeatedly by uttering harsh scoldings, insensitive reprimands, and severe rebukes, thus causing irreversible injury and destruction to him and his administration. This shall be the result of top agencies in this country--such as the C.I.A., N.S.A., Department of Homeland Security, FEMA, and others--acting on faulty information, which shall ultimately expose them as incompetent.

Even more so, the phrase chew out made it clear that even the *people* who reside in the United States of America shall become so full of moral and spiritual darkness that they too shall intentionally seek to scold harshly and severely rebuke their leader--the President--as well as their fellow U.S. administrators through language and utterances that are severely abusive, violent, and profane. And, besides that, they shall also use their *freedom of speech*--through the power of communication, by way of their physical tongues--to inflict severe verbal backlashes on each other, thus, causing them serious mental and emotional suffering or torment. This shall be the recompense of the *fifth* of the seven last plagues of יהוה. Praise יהוה! Praise בן יהוה!

At this time, we shall accomplish and perfect our examination, inquiry, and investigation of our Scriptural study through the use and application of the divine Ten-Step Study Method of **יְהוָה בֶּן יְהוָה**. Also, we shall search for the truth in the Word of **יְהוָה** by being diligent and zealous in our course of enlightenment to gain insight and understanding on the *sixth* of the seven last plagues.

We are currently ready to embark on our scrutiny and inspection of our subject for this morning. Therefore, let us all turn to and read the topic Scripture for our current discussion, which is Revelation, Chapter 16, verse 12:

**“And the sixth angel poured out his vial upon the great river Euphrates; and the water thereof was dried up, that the way of the kings of the east might be prepared.”**

In this verse, we can notice that something extremely important is going to take place at the outcome of the pouring out of this “sixth” of the seven last plagues. Thus, the preliminary part of our research Scripture open for analyzing is the phrase, which reads, ***“And the sixth angel poured out his vial upon the great river Euphrates; ...”***

According to the *Random House Webster’s Unabridged Dictionary*, copyright 1999, Software Edition, **sixth** is classified as “the sixth member of a series.” We already know that there are seven angels who have the seven last

plagues in their possession. Hence, this definition easily leads us to the conclusion that the angel at the center of our discussion in progress is the *sixth* in the series of seven angels to carry out his particular task.

Next, we shall refer to our formerly acknowledged meanings and accounts of the word **angel** from our last seminar since they are relative to this study. In the widely recognizable source of *The New Strong's Expanded Exhaustive Concordance of the Bible*, Red Letter Edition, copyright 2001, on page 2 of the Greek dictionary, **angel** can be found under the reference number 32, and is pronounced *ang'-el-os*. **Angelos** is defined as “a messenger sent by God, **יְהוָה**, and most frequently refers to an order of created beings superior to men belonging to Heaven and to God, **יְהוָה**, and engaged in His service.”

In addition, **angel** is also located in *The New Strong's Expanded Concordance of the Bible*, on page 158 of the Hebrew dictionary, reference number 4397, spelled from right to left as **מלאך** (Mem, Lamed, Aleph, Chaf-Sofet), pronounced *mahl-ahk*. **Mahlahk** is described as “a messenger specifically of God, **יְהוָה**, that is, also a prophet.” While a **prophet** is identified as “one regarded as the final authoritative revealer of the will of God, **יְהוָה**”; to **reveal** is to “cause or allow something to be seen and to make something known to humans by

divine means” as maintained in *I Finger New Oxford American Dictionary & Thesaurus*, copyright 2000, Computer Software.

From these definitions, we can comprehend that the individual in our foundation research Scripture is the *sixth* member in the series of seven angels who shall have the sixth plague of יהוה in his possession. In Revelation, Chapter 16, verse 12, this angel is a messenger sent by God, יהוה. He is a member of the order of created beings that are “superior” to men. What’s more, he is a being who not only belongs to Heaven and to God, יהוה, but he shall also be actively engaged in His service. Furthermore, this *sixth* angel is to be regarded as one of the seven final authoritative prophets who shall cause something explicit to be seen and to make something in particular known to humans by the *divine* will of God, יהוה.

Let us read Revelation, Chapter 1, verse 1 for verification that our God, יהוה, sends His Word by way of His angels:

**“The Revelation of [יהוה בן יהוה], which God, יהוה, gave unto Him, to shew unto His servants things which must shortly come to pass; and He sent and signified it by His angel unto His servant John”:**

Let us also read Jeremiah, Chapter 28, verse 9 to see the significance surrounding the prophets of the Lord, יהוה:

**“The prophet which prophesieth of peace, when the word of the prophet shall come to pass, then shall the prophet be known, that the Lord, יהוה, hath truly sent him.”**

Thus, these Scriptures corroborate our aforementioned definitions for further confirmation that these seven angels who possess the seven last plagues shall receive their power and communication directly from God, יהוה.

Praise יהוה! Subsequently following our Scriptural phrase, we must expound on the words **pour out** (*And the sixth angel poured out ...*), which are validated in the *e-Sword*, Computer Software, copyright 2000-2004, reference number 8210 of the Hebrew dictionary, spelled from right to left שפך (Shin, Fey, Chaf-Sofet), pronounced *shah-fahk*. **Shaphak** means “to spill forth and (figuratively) to expend life, soul, money, etc.” Also, **shaphak** is, “intensively to sprawl out.” In *Webster’s New World Dictionary & Thesaurus*, copyright 1998, Computer Software, **spill** is synonymous to *drop* or *empty*. And **expend** is to “use up”; and to **use up** is to “to exhaust useful properties” (as referenced in *Merriam Webster 11<sup>th</sup> Collegiate Dictionary*, copyright 2003, Computer Software). And to **sprawl out** is “to spread out in an uneven way.”

Accordingly, we can deduce with certainty that the sixth angel of יהוה shall drop or empty his precise plague upon a definite entity--**the great river Euphrates**--such that it will exhaust its useful properties, which will result in the loss of many lives, a lot of souls, untold amounts of money, etc. Furthermore, he shall intensively spread out the contents of his sixth vial of the wrath of יהוה in an awkward or uneven way.

We definitively accepted and agreed upon the grammatical explanation of the word *his* in relation to the foundation Scriptures for this seminar series as a possessive adjective showing the possessor of one of the vials of the wrath of יהוה. Because the word **his** classifies the superior being in Revelation, Chapter 16, verse 12, we can confirm that he is simply the possessor and carrier of the sixth plague. In addition to that, this peculiar angel shall also be the agent and object by which the pouring out of the sixth vial of the wrath of יהוה shall be achieved with a surety and of a guarantee.

Our on-going deciphering of Revelation, Chapter 16, verse 12, leads us once again to the *vial*, which is the object and item from which the sixth of the seven last plagues shall be *dropped into* or *emptied upon* **the great river Euphrates**. As we have established throughout our seminars, a **vial** is affirmed from *The New*

*Strong's Expanded Exhaustive Concordance of the Bible*, on page 263 of the Greek dictionary, number 5357, pronounced *fee-al-ay* in Greek, as “a broad shallow cup.”

In *The American Heritage College Dictionary*, Third Edition, copyright 2000, it states that **broad** means “full and open.” On the other hand, **shallow** from *The New Oxford American Dictionary*, copyright 2001, on page 1566, means “of little depth.” In several of our seminars, we determined these definitions to mean that this full and open cup will be of little depth, which shall allow the contents to pour and spill out easily. Again, we must recapitulate that a **cup** from the same aforementioned source is, “one’s portion or share, as of sorrow.”

In compliance with all of these definitions, we can attest to the fact that the sixth vial, which represents the sixth of the seven last plagues of יְהוָה, shall be in the worthy possession of His sixth created being that is superior to men. Additionally, we read in the foundation research Scripture for our present discussion that this vial shall be wholly full and open with exact portions and shares of sorrow. Praise יְהוָה!

Now we have arrived at the section when we shall acquire the true meaning hidden in Revelation, Chapter 16, verse 12 concerning the sixth plague of יְהוָה

being dropped into or emptied “... *upon the great river Euphrates.*” This statement must be explained and made simple so that we can recognize the circumstances when we see them being displayed and put into plain sight by the divine will of יהוה. Remember, we are completing our breakdown of the phrase “*And the sixth angel poured out his vial upon the great river Euphrates; ...*”

In compliance with the *Merriam-Webster's 11<sup>th</sup> Collegiate Dictionary*, copyright 2003, Computer Software, **upon** is a preposition that simply means “on.” And from this same dictionary the word **on** is “used as a function word to indicate a source of dependence.” With these understandings, we can deduce that the sixth of the seven last plagues shall be dropped or emptied into a particular source of dependence, which is identified as *the great river Euphrates*, thereby causing its useful properties to be exhausted.

In continuation, based on the *Microsoft Encarta Dictionary*, copyright 1993-2004, Computer Edition, **the** is a word “indicating most famous or important: the best or most outstanding.” **Great** is described in the *Merriam-Webster's 11<sup>th</sup> Collegiate Dictionary*, as “markedly superior in quality.” In the *American Heritage Talking Dictionary and Thesaurus*, copyright 1997, Computer Software, **great** also means “chief or principal.” These combined meanings allow us to

assert that the Scripture is indicating that the *river Euphrates* is the most famous or important: the best and most outstanding. This *river* is also said to be the chief or principal, and is markedly superior in quality.

What is the significance of this famous, important, and outstanding river? Well, let us search into the facts surrounding the great river that shall have the sixth of the seven last plagues dropped or emptied into it causing certain useful properties to be exhausted. Based on the credibility of *Random House Webster's Unabridged Dictionary*, copyright 1999, Software Edition, a **river** is authenticated as being "a similar stream of something other than water." It is also "any abundant stream." A **stream** is "something that flows continuously or quickly in large quantities," according to *Microsoft Encarta Dictionary*, copyright 1993-2004, Computer Edition.

With these definitions in mind, it is pertinent that we settle on the fact that the river mentioned in this Scripture is not actually a body of water. It flows *like* water, but it is not water. The *river* in Revelation, Chapter 16, verse 12 symbolically and metaphorically refers to a stream of something other than water. Plus, this stream is abundant and flows continuously or quickly in large quantities.

Moreover, we can presume that the *river Euphrates* is something other than water and is considered as the most famous or important. Furthermore, this *river* has the reputation of being the best and most outstanding, plus it is markedly superior in quality and is the chief or principal product of a specific region. Even more so, this stream is abundant and flows continuously and quickly in large quantities.

Given that this river is like water, then to find out what this river really is, we must unearth the obscurity hidden in the word *Euphrates*. When we hear Euphrates or Euphrates River, we might think of the Garden of Eden, right? Since it was one of the rivers of the Garden in the Bible, that is understandable. However, today in this present time, it is a river found in a certain part of the world. This distinct part of the world plays a very important role in the overall state of global affairs.

Following this train of thought, the reliable reference source of *e-Sword*, Computer Software, copyright 2000-2004, documents **Euphrates** in the Hebrew dictionary, under the reference number 6578, spelled פרת (Pey, Resh, Thav), pronounced *per-awth* as being from an unused root meaning “a river of the East.”

In *Webster's New World Dictionary & Thesaurus*, copyright 1998, Computer Software some synonyms of [the] **East** are “Middle East, Mideast, and Arabia.”

According to the trusted source of *Microsoft Encarta Reference Library 2004*, copyright 1993-2003, Computer Edition, the **Middle East** is “[the] geographic and cultural region located in southwestern Asia and northeastern Africa. The term refers collectively to the Asian countries of Bahrain, Cyprus, **Iran, Iraq, Israel** (and the Israeli-occupied Gaza Strip and West Bank), **Jordan, Kuwait, Lebanon**, Oman, Qatar, **Saudi Arabia, Syria**, Turkey, the **United Arab Emirates**, Yemen, and the African country of Egypt.”

The same article goes on to say that “since the mid-20th century the main export commodity has been **oil** from the countries where it is located. About 65 percent of the world’s petroleum reserves and 26 percent of its natural gas reserves are in **Iran, Iraq, Kuwait, Saudi Arabia**, and the **United Arab Emirates**. In 1996, these states produced about 26 percent of the world’s oil and 5 percent of its natural gas. The economies of these countries depend almost entirely on these reserves. Petroleum mining and related industries also dominate the economies of Bahrain, Qatar, and Oman, all of which have smaller but still significant reserves.”

In addition, “the Organization of Petroleum Exporting Countries (OPEC) is an international organization that is primarily concerned with coordinating the crude-oil policies of its member states. Founded in 1960, OPEC has 11 members--Algeria, Indonesia, **Iran, Iraq, Kuwait**, Libya, Nigeria, Qatar, **Saudi Arabia, United Arab Emirates**, and Venezuela.”

With this information, we can figure out that the sixth angel in the series of seven angels who possess the seven last plagues shall drop or empty his particular plague into a specific source of dependence--the abundant, continuous, and quick flow of **oil, petroleum, and natural gas**. These abundant, continuous, and quick flows are found mainly in the Middle Eastern countries of **Iran, Iraq, Kuwait, Saudi Arabia**, and the **United Arab Emirates**. Nevertheless, this sixth angel or authoritative prophet of **יהוה** shall cause these useful properties to be exhausted, which shall result in the loss of many lives, a lot of souls, untold amounts of money, etc. Furthermore, he shall also intensively spread out the contents of his sixth vial of the wrath of **יהוה** in an uneven way, which means he will cause the contents to “vary in quality,” according to *Merriam-Webster’s 11<sup>th</sup> Collegiate Dictionary*, copyright 2003, Computer Software.

Moreover, we can conclude even further that the *great river Euphrates* in our foundation research Scripture in fact provides the most abundant flow of oil, petroleum, and natural gas that is considered the most famous or important commodity from the Mideast region. Oil from the Middle East has the global reputation of being the best and most outstanding. This unique oil is markedly superior in quality and is the chief or principal product of the Middle Eastern economy. Right now, this stream of oil is abundant and flows continuously and quickly in large quantities.

Now, let us take a moment to get a determinate comprehension of what *oil* is. **Oil** is defined from the *Microsoft Encarta Dictionary*, as a “petroleum derivative: any of various liquids extracted from petroleum, for example, heating oil and motor oil, that are used as domestic fuels or as machinery and engine lubricants. In addition, petroleum and its derivatives are used in the manufacture of medicines and fertilizers, foodstuffs, plastics, building materials, paints, cloth, and to generate electricity.”

“Crude oil is considered one of the most useful and versatile raw materials that has become available for exploitation. By 2001, the United States was using 7 billion barrels of petroleum per year, and worldwide consumption of petroleum

was 28.2 billion barrels per year. The world's technically retrievable reserves of crude oil--the amount of oil that experts are certain can be extracted without damaging the Earth--add up to about 1,000 billion barrels. Of the known oil reserves that can be profitably extracted at current prices, more than half are in the Middle East; only a small fraction are in North America.”

With this information, we can agree on the fact that we all use oil in some form in our everyday lives. It might be the gas for vehicles, heating oil, or any other domestic fuel or lubricant used for almost all mechanical devices. Additionally, petroleum and its derivatives are used to make medicines and fertilizers, certain foods, plastics, building materials, paints, types of cloth, and even to generate electricity. As a matter of fact, geological and energy statistics show that of the top ten oil consuming countries, the United States is number one with Japan and China in second and third place.

Nevertheless, the conditions are being set for the sixth angel of **יהיה** to implement the sixth of the seven last plagues. Right now, we are witnesses to the deplorable state of affairs regarding the oil reserves in the world, especially the Middle East. With the tremendous amount of war and persistent violence taking place in that region, oil from anywhere and everywhere now has an extremely high

stock-value. The higher it costs per barrel, the more people have to pay at the pump.

As of today, gas prices are absolutely off the charts. Some news reports have shown people complaining that they pay \$100 or more just to fill their tanks. Yet again, almost every day we see the cost of crude oil rising per barrel. If it continues to escalate at the rate that it is going right now, no one will be able to drive. And if we think the situation is awful now, it is nowhere near as terrible as it will be when this sixth plague of **הַחֵהָרָה** goes into full effect.

As a result of this sixth angel intensively spreading out the contents of his sixth vial of the wrath of **הַחֵהָרָה** in such a way that they shall vary in quality, these useful properties shall be exhausted, which will result in the loss of many lives, a lot of souls, untold amounts of money, etc. As we proceed on in our study, it is now necessary for us to find out exactly what the sixth angel in the series of seven angels shall cause to happen to the oil reserves in the Middle East. To do this, we must translate and interpret the next part of our foundation research Scripture. But, before we move on to decode the subsequent phrases, I must point out that our initial phrase, *“And the sixth angel poured out his vial upon the great river*

*Euphrates; ...*” ends with a semicolon. It is important for us to understand why this is so if we are to fully comprehend the Scripture.

This being the case, according to page 73 of *Punctuation: Plain and Simple*, copyright 1997, it explains, “a semicolon is used to join two main ideas when the second main idea functions to explain the first.” Therefore, we can ascertain that after we decipher the upcoming phrases they shall serve to explain the statement that was made first in our foundation Scripture.

We have proven the *river Euphrates* to actually be the abundant, continuous, and quick flow of oil, petroleum, and natural gas from the reserves of the Middle East. Now, let us find out how this relates to the next phrase in Revelation, Chapter 16, verse 12 which states in part, “*and the water thereof was dried up, ...*” To validate this comment, we shall turn to a trusted reference source called *Roget’s 21<sup>st</sup> Century Thesaurus in Dictionary Form*, Second Edition, copyright 1999. On page 870 under the word **water**, it says to see concepts 256 and 467. While concept 256 on page 915 clearly states that **water** is “oil”; concept 467 on page 933 plainly indicates that **water** is also “fuel, gasoline, and petroleum.” The word **thereof** is defined as “of or concerning it.” Henceforth, we can rationalize that the *water thereof* is explaining even further that this second

phrase is of or concerning it--the *great river Euphrates*, which was revealed as the abundant, continuous, and quick flow of oil, fuel, gasoline, and petroleum from the Middle East.

In addition, we noticed from Revelation, Chapter 16, verse 12 that the abundant, continuous, and quick flow of oil, fuel, gasoline, and petroleum from the Middle East, especially from the countries of **Iran, Iraq, Kuwait, Saudi Arabia, and the United Arab Emirates** “... *was dried up.*” Conformable to a definition located in the *I Finger New Oxford American Dictionary & Thesaurus*, copyright 2000, Computer Software, it says that **was** as the verb **be**, is “used to indicate something due to happen.”

On this account, it is recognizable that the angel, superior being, or authoritative prophet spoken of in Revelation, Chapter 16, verse 12 shall be the catalyst by which something extremely drastic and sweeping is due to happen to the oil reserves of the Middle East. This occurrence shall be so severe that the oil and petroleum used for fuel and gasoline shall *dry up*. What does this really mean?

Well, in the Hebrew dictionary of *e-Sword*, Computer Software, copyright 2000-2004, under the reference number 1809, **dry** is spelled **דָּרַךְ** (Dalet, Lamed,

Lamed), pronounced *daw-lal* which is a primitive root meaning “to slacken or be feeble.” **Slacken** is defined in the *Merriam Webster 11<sup>th</sup> Collegiate Dictionary*, copyright 2003, Computer Software as “to make less active.” It also means, “to become negligent.” **Feeble** is described in the same aforementioned source as “deficient in qualities or resources that indicate efficiency; inadequate, inferior.” The *Microsoft Encarta Dictionary*, copyright 1993-2004, Computer Edition, defines **inadequate** as “failing to reach an expected or required level or standard.” And **inferior** means “low in quality or value” according to the *American Heritage Talking Dictionary and Thesaurus*, copyright 1997, Computer Software.

These explanations give us uncompromising evidence that the sixth angel of **הה"ו** who possesses the sixth vial of the wrath of **הה"ו** shall cause the currently abundant, continuous, and quick flow of oil, petroleum, and natural gas from the Middle East to become less active and negligent, meaning he will cause these useful properties to “habitually fail to do the required thing.” In addition, this sixth angel will also cause these useful properties to be deficient in the qualities and resources that make them efficient and valuable for use, consumption, or sale.

Because of having the sixth plague of **הה"ו** dropped or emptied into these useful properties--all of the oil wells, reserves, and refineries in the Middle East

(mainly from Iran, Iraq, Kuwait, Saudi Arabia, and United Arab Emirates)--shall fail to reach their expected or required level of production or standard of excellence. Therefore, this once markedly superior oil shall become so low in quality that it will no longer have any real monetary value.

What is the precise occurrence that shall cause the oil we are discussing to lose its level of production and standard of excellence? For the answer to this question dictionary proof is required. Thusly, we can refer to the *Merriam-Webster's 11<sup>th</sup> Collegiate Dictionary*, Computer Software, which defines **dry** the present tense of **dried** as “of natural gas: containing no recoverable hydrocarbon (as gasoline).” This source further classifies a **hydrocarbon** as “an organic compound (as acetylene or butane) containing only carbon and hydrogen and often occurring in petroleum, natural gas, coal, and bitumens.”

These definitions verify that the sixth angel of **יְהוָה** shall cause the oil reserves of the Middle East to contain no recoverable organic compounds of carbon and hydrogen. These two elements are vital and necessary for the formation and composition of petroleum, natural gas, coal, and bitumens. Without carbon and hydrogen, these useful properties shall fail to reach their expected standard of excellence.

Because oil, petroleum, natural gas, coal, and bitumen are organic compounds that contain only carbon and hydrogen, their chemical compositions can be easily altered by the interference of any inorganic compounds or chemicals. An **inorganic compound** is a chemical compound that contains *no* carbon. Therefore, if it is mixed into an *organic* compound, it will cause irreversible damage to its original chemical state. Besides, this type of contamination can take place either in the oil wells underground or in the pipelines.

Now, at this time, we can conclude with certainty that the sixth angel of יהוה who possesses the sixth vial of the wrath of יהוה shall cause the currently abundant, continuous, and quick flow of oil, petroleum, and natural gas from the Middle East to become less active and to habitually fail. Furthermore, he shall cause these same useful properties to also become deficient in the qualities and resources that make them efficient and valuable for use, consumption, or sale. Because of having an **inorganic compound** that contains *no* carbon dropped or emptied into it, this once markedly superior oil shall become so low in quality that it will no longer have any real monetary value. Thus, all of the oil reserves and refineries in the Middle East--mainly Iran, Iraq, Kuwait, Saudi Arabia, and United Arab Emirates--shall fail to reach their expected or required level of production or standard of excellence.

Moreover, from the word **dry** we can further determine that this future lack of qualitative production from the Middle Eastern oil and petroleum industry shall in turn cause the rest of the world's oil production to "be brought low, emptied, impoverished, and made thin," according to reference number 1809 of the *Strong's* Hebrew dictionary. In plain words, these major oil producers shall not yield the oil that is expected or desired because their natural gas deposits will contain no recoverable carbon and hydrogen compounds, which are vital and necessary for the formation and composition of petroleum, natural gas, coal, and bitumen. Furthermore, many major national economies--including America--shall simply fail because they are highly dependent upon the vitality of the oil industry.

Another principal consequence of oil contamination is that the many uses of petroleum and its derivatives will be eradicated. Plainly speaking, this means there will be no qualitative gas for vehicles, heating oil, nor any other domestic fuel or lubricants that are used for most mechanical devices. In addition, some medicines and fertilizers, certain foods, plastics, building materials, paints, types of cloth, and methods to generate electricity shall become obsolete. Praise יהוה!

At this time, we shall uncover the state of affairs that shall be the consequence of the oil producing countries of the Middle East no longer having

their chief or principal commercial product available for sale or consumption. If these countries shall eventually no longer be able to produce a qualitative commodity so vital to the stability of their economy, then it must have some even wider and more far-reaching repercussions than the ones previously mentioned.

In consideration of all these facts, we must read the last part of Revelation, Chapter 16, verse 12 to see what the result of the detrimental collapse of oil production and economic stability of the Middle East shall bring about. Keep in mind that these events shall come about because of the sixth angel of **ההה** causing the natural oil deposits of the Middle East to become contaminated with inorganic chemicals that shall alter their original state, thereby making them lacking in quality and excellence. Let us read Revelation, Chapter 16, verse 12 in part:

**“... that the way of the kings of the east might be prepared.”**

In our foundation research Scripture, while **that** is a conjunction “expressing result or effect”; on the other hand, the word **the** is defined as “used, especially before a noun, with a specifying or particularizing effect.”

As maintained by *e-Sword*, Computer Software, **way** can be found in the Greek dictionary, under the reference number 3598, pronounced *hod-os*. **Hodos** is “*figuratively* a mode or means.” In correspondence with the *Random House*

*Webster's Unabridged Dictionary*, copyright 1999, Software Edition, a **way** is “a method, plan, or means for attaining a goal.” A **way** is also, a “course of procedure that one chooses or wills.”

Combining these explanations, we can resolve that *the* is used principally before the noun, *way*, to express a specific result or particular effect. This result and effect shall become manifest by the *kings of the east* utilizing a detailed mode, means, method or plan for attaining a definite goal. They shall reach and accomplish their goal by pursuing a course of procedure that they will believe they themselves chose to commit to of their own will. However, it is our God, **יהוה**, who is actually the One who has purposed these circumstances by way of his sixth angel. Let us validate this by reading Isaiah, Chapter 46, verses 9 through 11:

**[9] “Remember the former things of old: for I am God, **יהוה**, and there is none else; I am God, and there is none like Me,**

**[10] Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all My pleasure:**

**[11] Calling a ravenous bird from the east, the man that executeth My counsel from a far country: yea, I have spoken it, I will also bring it to pass; I have purposed it, I will also do it.”**

These Scriptures are a testimony that our God, יהוה, has purposed certain occurrences and situations to take place in the Middle East for His pleasure and He shall of a surety bring them to pass. Praise יהוה! As we move steadily along in our study, we have come to the point at which we need to establish exactly who *the kings of the east* are. We've proven earlier that the East is actually the Middle East, so who are these kings being mentioned in our foundation Scripture?

The *Merriam-Webster's 11<sup>th</sup> Collegiate Dictionary*, copyright 2003, Computer Software classifies a **king** as “a chief among competitors.” In the same fashion, *Webster's New World Dictionary & Thesaurus*, copyright 1998, Computer Software equates a **king** with “a man who is supreme or highly successful in some field (an oil king).” Lastly, *The Synonym Finder*, by J. I. Rodale, copyright 1978, on page 627 gives some synonyms of **king** as “mogul, tycoon, boss, and big shot.”

In compliance with these synonyms, it is obvious that the *kings* in Revelation, Chapter 16, verse 12, are the chief competitors in the oil industry of the Middle East. In addition, these chief competitors have been supremely and highly successful in their respective fields of oil production. Moreover, they are the moguls, tycoons, bosses, and big shots operating the major oil companies of the Middle East. Nevertheless, these chief competitors, moguls, tycoons, bosses, and

big shots in the oil industry of the East shall make use of a method or plan for attaining a definite goal by pursuing a course of procedure that they shall all commit to.

The willingness of these highly successful oil moguls and tycoons to commit to this particular course of procedure is a result of their *way* already being *prepared*. In the *Merriam-Webster's 11<sup>th</sup> Collegiate Dictionary*, **might** is an auxiliary verb meaning to “have the ability to.” The trusted source of *e-Sword*, Computer Software, copyright 2000-2004, certifies that **prepared** in the Greek dictionary, reference number 2090, is pronounced *het-oy-mad'-zo* which means “to provide and make ready.”

Based on the credibility of the *American Heritage Talking Dictionary and Thesaurus*, copyright 1997, Computer Software, to **prepare** is “to make ready beforehand for a specific purpose, as for an event or occasion.” Therefore, we have further confirmation that the mode and means for these particular persons identified as *kings* in Revelation, Chapter 16, verse 12, have been made ready beforehand for a specific purpose, event, or occasion.

These highly successful moguls, tycoons, bosses, and big shots operating the major oil companies of the Middle East have been provided everything that they need, and everything has been made ready for a specific purpose, event, or occasion to take place at a definite and precise time. Thus, the important event or occasion that these persons are waiting for is to implement their plan-of-action in which they shall all unanimously choose to contaminate and poison the oil, petroleum, and natural gas reserves of their own countries with inorganic chemicals that shall alter the original state of their natural deposits either in the underground wells or in the pipelines.

Their plan is for this contamination and poisoning to cause all of the oil, petroleum, natural gas, fuel, and coal produced by the relevant countries to be inadequate, inferior, and deficient in quality and standards, thereby being useless for sale or consumption.

Now why would these top oil moguls, tycoons, bosses, and big shots from the Middle East do something that they know will devastate not only the economies of their countries, but also their own personal fortunes? The answer is because the sixth angel of **יהיה** shall put it in the hearts and minds of these moguls to destroy the oil which is so valuable to the global economic market right now

rather than let other outside governments like America along with her allies come in on their land and retrieve it for themselves under the guise of war for global democracy.

Also, more importantly, it is prophesied in the Book of Joel, Chapter 3 of the Holy Bible, that the Lord, יהוה, shall gather the heathen into the valley of Jehoshaphat. The name **Jehoshaphat** can be found in *The New Strong's Expanded Exhaustive Concordance of the Bible*, Red Letter Edition, copyright 2001, on page 109 of the Hebrew dictionary, spelled יהושפט (Yod, Hey, Wav, Shin, Fey, Tet). *Yeh-ho-shaw-fawt* means “יהודה-judged; [and is] also of a valley near Jerusalem.”

The old city of Jerusalem is located in the country of Israel. Israel (and the Israeli-occupied Gaza Strip and West Bank) is one of the countries we previously listed as a country of the Middle East. Therefore, we can deduce that the Middle East as a whole is the area in which יהוה shall cause many wars and battles to take place. If we watch the news today, it is evident that prophecy is being fulfilled. We have witnessed the destruction of Afghanistan, Iraq, Israel, and now Lebanon with Iran as the next possible target. Let us all turn to and read Joel, Chapter 3, verses 11 through 14:

[11] **“Assemble yourselves, and come, all ye heathen, and gather yourselves together round about: thither cause thy mighty ones to come down, O Lord, יהוה.**

[12] **Let the heathen be wakened, and come up to the valley of Jehoshaphat: for there will I sit to judge all the heathen round about.**

[13] **Put ye in the sickle, for the harvest is ripe: come, get you down; for the press is full, the fats overflow; for their wickedness is great.**

[14] **Multitudes, multitudes in the valley of decision: for the day of the Lord, יהוה, is near in the valley of decision.”**

Let us also all turn to Jeremiah, Chapter 51, verses 27 through 29:

[27] **“Set ye up a standard in the land, blow the trumpet among the nations, prepare the nations against her, call together against her the kingdoms of Ararat, Minni, and Ashchenaz; appoint a captain against her; cause the horses to come up as the rough caterpillers.**

[28] **Prepare against her the nations with the kings of the Medes, the captains thereof, and all the rulers thereof, and all the land of his dominion.**

[29] **And the land shall tremble and sorrow: for every purpose of the Lord, יהוה, shall be performed against Babylon, to make the land of Babylon a desolation without an inhabitant.”**

Praise יהוה! Every purpose of the Lord, יהוה, shall be accomplished against America. We all know that the wars being raged over in the Middle East are not

about democracy as the President and his government claim. The real reason that the American military is consistently occupying areas over in that region is because of the abundant, continuous, and quick flow of oil, petroleum, and natural deposits they contain. Nevertheless, we have uncovered the circumstances that shall soon come to pass regarding these abundant useful properties: these moguls, tycoons, bosses, and big shots shall implement a plan-of-action and unanimously agree to contaminate and poison the oil, petroleum, and natural gas reserves of their own countries with inorganic chemicals that shall alter the original state of their natural deposits. This shall leave them completely worthless and useless.

Praise יהוה! This morning's study discussion allowed us to be educated and up-to-date on the tremendously dire and dismal conditions and repercussions that shall intensively spill forth upon the vast oil supply and industry of the Middle East. We also received insight and information on precisely how this divine plague of יהוה shall be perpetrated by his sixth angel in the series of seven angels who possess the cataclysmic seven last plagues.

I must always give thanks and praise to my Father, יהוה, for the opportunity to stand and present His Word to His children, and I hope to see you all again to partake of the knowledge contained in part ten of "*The Seven Last Plagues.*" I am

sure that you are all enjoying the observance of this wonderful **Twenty-Sixth Annual Feast of Tabernacles** in Montreal, Quebec, Canada. Praise יהוה! Praise יהוה בן יהוה! Shalom Aleichem!
